Message from the President

Dear Partners and Friends of the Centre,

The years go by, but the needs not only remain—they continue to grow. The housing crisis is taking a toll on our children. Throughout the year, our team worked tirelessly to support and care for more than one thousand children in the city of Gatineau alone.

Over the past year, the Board of Directors has continued its efforts to strengthen the Centre's governance and ensure the long-term sustainability of its activities.

As you can imagine, without the support of our community, many children would be left without the help they need. We would like to express our deepest gratitude for your invaluable support.

This year, we established a Committee for the Promotion and Protection of Children's Rights. Important groundwork has already been laid through its initial planning and direction, and this work will continue in the coming year.

We must do more to amplify the voices of children and support them in speaking up. The work accomplished over the past several years—during which we have supported hundreds of families and provided care to our children—has been essential and deeply meaningful, and it will continue. At the same time, it is equally important to raise awareness that such situations of extreme vulnerability should not exist in our society, here in Gatineau.

Each of us has the power to make a difference, but our efforts must be brought together to create meaningful change—for the benefit of our children and, indeed, for all of us. Stay tuned for the next steps in this important initiative to promote and uphold children's rights.

In closing, as I do every year, I want to acknowledge the invaluable support of our community, our donors, and our volunteers. Their unwavering commitment is reflected in concrete actions that make a lasting difference in the lives of our children and their families.

Every morning, somewhere, a child still needs someone to reach out a helping hand.

Pierre Landry

CHAIR OF THE BOARD OF DIRECTORS

Message from the Executive Director

It is with pride that I present the 2025–2026 Annual Report of the Centre de pédiatrie sociale de Gatineau.

When I wrote these few lines last year, I had only been in my role for a few months. I was still discovering this remarkable organization, its dedicated team, its partners, and everything that surrounds our mission.

Today, after completing my first full year as Executive Director, my perspective has evolved. I have had the privilege of gaining a deeper understanding of both the richness and the complexity of the ecosystem that enables our organization to support hundreds of children and families every day.

The 2025–2026 year brought its share of challenges and valuable lessons. At a time when needs remain significant and continue to grow, we faced an increasingly uncertain funding environment, challenges related to attracting and retaining staff, and the day-to-day realities that come with a growing organization.

Despite these challenges, we remained focused on our mission.

This year confirmed one essential truth: the CPSG's greatest strength lies in the people who bring it to life. Behind every intervention, every project, every partnership, and every success are women and men who are deeply committed to the well-being of children. I have had the privilege of working alongside a skilled, generous, and resilient team that shows up every day with professionalism, creativity, and compassion.

Together, we continued an important process of strengthening our organization. We invested significant time and energy into further structuring our practices, enhancing our employment conditions, supporting the growth and development of our teams, and implementing measures that promote greater transparency and improved planning.

Although these efforts are sometimes less visible, they are essential to ensuring the long-term sustainability of our organization and fostering a healthy, engaging workplace.

At the same time, we continued to develop meaningful initiatives and build strong collaborations. The growth of the Boite à musique (BAM), the addition of new spaces designed to meet the needs of young people, the expansion of community-based services, the partnerships that enrich our programs, and the many initiatives carried out with and for children all reflect our ongoing commitment to innovation and to adapting our services to their evolving realities.

None of these achievements would have been possible without the collective effort that unites us. I would like to extend my heartfelt thanks to our staff, our Board of Directors, our volunteers, our clinical, institutional, and philanthropic partners, and to everyone who chooses to support our mission. Your trust and commitment enable us to reach further and dream bigger.

At the CPSG, we move forward through both small and significant steps, along paths that are sometimes challenging, but always guided by the same mission and the same unwavering conviction. That conviction is that every child deserves to be heard, supported, and accompanied on their journey toward reaching their full potential.

Thank you for continuing this journey with us.

Chloé Martinetti
EXECUTIVE DIRECTOR

Centre de pédiatrie sociale de Gatineau

Our Mission

The Centre de pédiatrie sociale de Gatineau's mission is to accompany, support, and provide care to children living in situations of social and economic vulnerability by focusing on their strengths so they can thrive to their full potential, in accordance with the Convention on the Rights of the Child.

To achieve its mission, the CPSG believes in sharing power with families and significant people in the child's life, respecting their dignity and promoting their rights.

Our Objectives

- Promote the overall development of children aged 0 to 17 through an approach of integrated social medicine grounded in rights
- Provide perinatal care and services to expectant mothers and fathers who have experienced difficult situations
- Detect, eliminate, or reduce the impact of toxic stress that harms children's overall health and development
- Support parents and families in regaining control over their lives
- Encourage the involvement of significant individuals to create a protective network around children
- Positively influence the practices of various organizations and partners to better serve children
- Enable our children to continue dreaming

Children's Rights

At the Centre de pédiatrie sociale de Gatineau, children's fundamental rights are at the heart of all our actions. Community social pediatrics (CSP) identifies sources of stress that harm the health and development of children in vulnerable situations. Drawing on the Convention on the Rights of the Child, it brings to light the child's unmet rights.

- 1 Children are born equal in rights
- 2 The best interests of the child govern decisions that concern them
- 3 Children enjoy freedoms and civil rights
- 4 The entire community must get involved with children to support their families
- 5 Children are born and grow up healthy
- 6 Children learn, play, and open themselves to the world
- 7 Children have the right to be protected

Our Board of Directors

- Pierre Landry, Partner Lawyer, Noël et Associés
- Doctor Anne Marie Bureau, Vice-President, Medical Advisor
- Anne-Karine Gauthier, Secretary, Neuropsychologist and Co-owner of CENO
- Charles Castonguay, Treasurer – CPA, CA, Partner, Deloitte
- Louise Bourgeois, Board Member – Volunteer
- Stéphane Lacasse, Board Member – Interim Executive Director at Centre de services scolaire des Portages-de-l'Outaouais
- Jérémie Gauthier, Board Member – Financial Planner and Partner at Hudon & Gauthier

Our Team

More than thirty diverse professionals, all committed to helping children reach their full potential.

Executive Team

- **Chloé Martinetti**, Executive Director
- **Caroline Masse**, Deputy Executive Director and Clinical Director
- **Michèle Thibault**, Senior Director of Philanthropy and Engagement

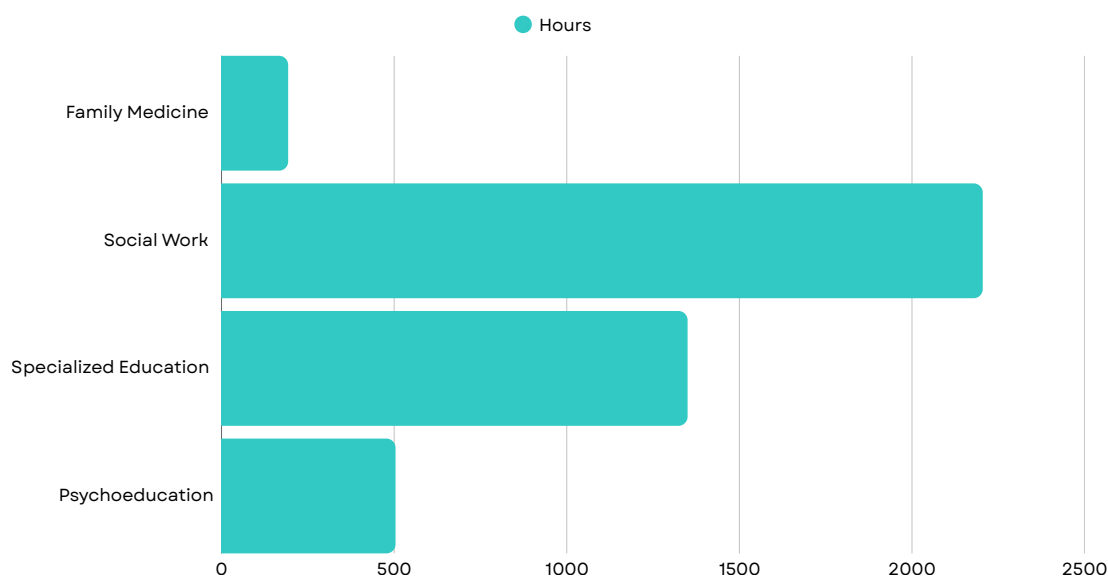

Interns

The Centre de pédiatrie sociale de Gatineau is a place of learning and knowledge-sharing for the next generation. Each year, the team welcomes interns from various fields who come to enrich their experience and immerse themselves in our innovative practices.

The presence of interns in our environment is a great asset!

In 2025–2026, we welcomed 51 interns from a variety of disciplines.

Volunteers

We would like to thank the volunteers who contributed throughout the year to the many activities at the CPSG. Your time and dedication are an invaluable resource in fulfilling our mission!

Volunteer Opportunities:

- Support for clinical activities (e.g., Letters to Santa, Summer BBQ, Christmas Party, etc.)
- Maintenance and repair support (e.g., renovations, repairs)
- Donation sorting
- Reception desk coverage
- Kitchen and snack preparation
- Photography
- Fundraising activities, ambassador roles, and philanthropy

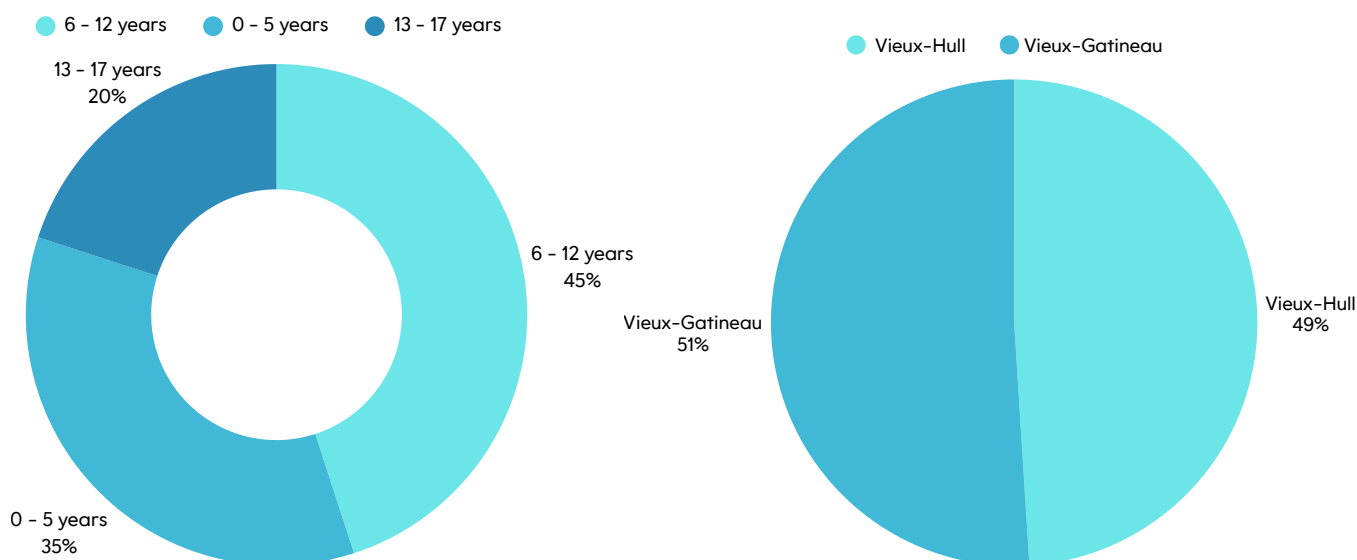

Our services

Profile of the Children We Support

Children who benefit from the services of the Centre de pédiatrie sociale de Gatineau live in vulnerable situations where their rights are often violated.

They are exposed to multiple toxic stresses that have both short- and long-term effects on their physical and mental health. Year after year, a growing number of children gain access to community social pediatrics services across the Gatineau region.

2400

Over 2400 children supported since the opening of the first center in 2009

1044

children received services in 2025-2026

145

new children followed this year

Clinical Services

636

Children seen for evaluation/orientation by a physician and a social worker

+125

Children who received individual psychosocial or educational support

33

Children who benefited from art therapy or dance/movement therapy

34

Children who received occupational therapy services

Numerous actions and support efforts were undertaken with parents and partners.

11 765
interventions carried out over the year

Group Activities

Each year, the Centre de pédiatrie sociale de Gatineau develops four activity programs, each designed based on evidence-informed practices in social pediatrics and the needs observed among the children we support.

Far more than recreational activities, these groups are part of a clinical approach aimed at fostering children's overall development. Every activity is intentionally designed to achieve specific objectives, such as strengthening social skills, building self-esteem and self-confidence, improving emotional regulation, fostering a sense of belonging, and developing new skills.

This approach allows us to provide meaningful, individualized interventions that create lasting, positive outcomes for the children we serve.

- Self-esteem building
- Building confidence through success
- Educational activities
- Special parent-child bonding moments
- Artistic activities
- Early childhood stimulation (ages 0–5)
- Dance therapy
- Sports and physical activities
- Mindfulness and relaxation
- Music activities
- Children's Rights Committee

Over 85 group
sessions were
offered to children
this year

Social Perinatal Clinic

The Social Perinatal Clinic offers expectant parents and their future newborns a continuum of perinatal care and services, including pregnancy follow-ups, psychosocial support, and wellness check-ins. The Social Perinatal Clinic provides compassionate support to expectant parents experiencing vulnerability, helping them navigate parenthood and strengthen a secure attachment with their future child.

This year, the Social Perinatal Clinic is celebrating its 5th anniversary! We have had the privilege of supporting even more expectant parents, including some families returning to us for support during a second pregnancy.

84

Expectant mothers supported this year, including ongoing follow-ups

29

Babies born through the Social Perinatal Clinic during the year

Boîte à Musique (BAM)

This year again, the Boîte à Musique team continued its mission by bringing its programs to schools and childcare centres (CPEs), while also welcoming children directly at our locations to offer group workshops and individual lessons. These activities encourage collective music learning in a supportive and stimulating environment.

At the end of this fourth year:

- More than 800 workshops were offered in classrooms, childcare centres (CPEs), and at our own locations, both in group settings and through individual lessons.
- More than 830 children have benefited from the program since its launch.
- 97% of children from the first cohort reported experiencing a greater sense of well-being, belonging, and inclusion with their peers and within their community.

In the long term, the program aims to provide music-based activities that promote awareness and empowerment, helping to reduce youth isolation and the impact of toxic and chronic stressors that can affect children's health and development, particularly among those from vulnerable backgrounds.

Notable achievements this year include:

- The addition of a school and a childcare centre in the Vieux-Gatineau area, allowing more children to benefit from the BAM program.
- The official inauguration of the Boîte à Musique, marked by a press conference celebrating this important achievement for the children in our community.
- Two performances at the Gatineau Conservatory of Music, giving children the opportunity to experience their first on-stage performance.
- The addition of a songwriting workshop with children, in collaboration with Michel Normandeau.

Supported by a dedicated team, children and youth are able to grow and thrive through music while developing their executive functioning and social skills.

The continued development of the Boîte à Musique program is made possible through the generous support of the Government of Canada and committed partners.

Enriching experiences along their journey

- Family BBQs to celebrate the summer season
- Participation in neighbourhood celebrations
- Facilitation of activities during spring break and professional development days
- Facilitation of activities during special celebrations (Halloween, Valentine's Day, etc.)
- Performances by the Petits Chansonniers choir
- Annual baby celebration event

Mentor Centre

Recognized as a Designated Centre by the Dr. Julien Foundation, the Centre de pédiatrie sociale de Gatineau serves as a leader in community social pediatrics in the Outaouais region.

Through this role, the CPSG team supports centres across the region by providing training and clinical guidance.

Our Achievements

Pilot Project on the Impact of Outreach Work with Isolated Families

After three years of implementation, the pilot project on the impact of community outreach work with isolated families came to an end. Supported by the Ministère de la Famille du Québec, this project aimed to reach families experiencing vulnerability who have limited or no access to the services available in their community, and to support them in connecting with resources that meet their needs.

During this final year, more than 100 families benefited from personalized support and guidance toward appropriate resources, including services related to child development, health, nutrition, housing, and immigration.

Following the completion of this project, Jessica officially joined the Centre de pédiatrie sociale de Gatineau team as a social worker, ensuring the continuity of her commitment to children and families. The community outreach worker role is now carried out by Jérémie, who continues this valuable work of connection and support within the community.

More than 100
families received
support and
guidance this year!

The official inauguration of the Boîte à Musique (BAM), a unique space dedicated to fostering the growth, learning, and development of children living in vulnerable situations

This project, funded in part by the Government of Canada through the Social Development Partnerships Program, was made possible through the collaboration of key partners including BBL Construction and its subcontractors, 1001 Voix, the Conservatoire de musique de Gatineau, and the Choquette-Legault Foundation.

The Centre also wishes to recognize the generosity of the many philanthropists, individuals, and businesses who, over the years, believed in this project and supported it, giving children a new opportunity to learn, have fun, and broaden their horizons.

Conceived more than ten years ago in partnership with the Conservatoire de musique de Gatineau, the Boîte à Musique took shape through two editions of the 1001 Voix benefit concert (2017 and 2018), which raised nearly \$125,000.

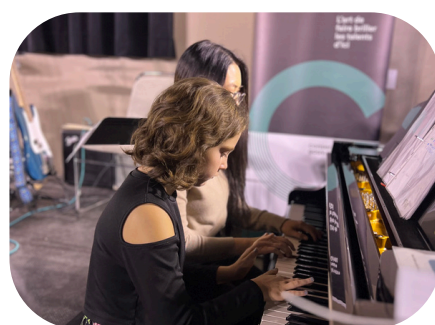

The project became a reality in the fall of 2022 through funding from Employment and Social Development Canada (ESDC), making it possible to launch the first workshops in schools and early childhood centres (CPEs). Since then, more than 540 children have participated in music workshops and activities, with over 530 sessions delivered, including 289 workshops in kindergarten classrooms and partner CPEs. These activities aim to reduce isolation, lessen the effects of toxic stress, and promote social inclusion.

Major renovations at the Centre's Hull site, initiated in the spring of 2024 by BBL Construction, marked a significant milestone in this collective project. These renovations now make it possible to offer individual support sessions in purpose-designed spaces. Through its ability to foster creativity, self-confidence, and self-expression, music has become a powerful tool for social inclusion and healthy child development, in keeping with the rights of the child.

"The Boîte à Musique embodies our mission: to provide children with a caring environment where they can reach their full potential despite the challenges they face," said Pierre Landry, Chair of the Board of Directors.

"Through the shared experience of learning music together, we aim to create an environment where children can strengthen their executive functioning skills while enjoying positive and empowering experiences. Music becomes a catalyst for social inclusion and well-being," added Chloé Martinetti, Executive Director of the Centre.

The official inauguration took place on September 18, 2025, at the Centre de pédiatrie sociale de Gatineau's Old Hull location, in the presence of partners, collaborators, and members of the community. The event featured speeches, a symbolic musical performance, and a guided tour of the new space.

Educational Support and Artistic Expression: An Enriching Partnership with UQO

This year, six children benefited from personalized educational support offered two evenings a week through the Université du Québec en Outaouais (UQO) University Orthopédagogic Clinic (CUO).

Each child received eight weeks of individualized support from a team of two student practitioners, as part of a valuable partnership between UQO and the Centre de pédiatrie sociale de Gatineau (CPSG).

Complementing this academic support, Galerie UQO led weekly art workshops for participating children, providing them with a creative space to express themselves, build confidence, and explore their potential through art.

As it does each year, this meaningful collaboration concluded with an exhibition showcasing the children's artwork, organized in partnership with Galerie UQO. The event was a moving celebration of their creativity, progress, and personal growth.

A heartfelt thank you to the entire teams at the CUO and Galerie UQO for this inspiring partnership, which allows our children to receive specialized educational support while enjoying a unique and enriching artistic experience.

Creating together: A Day Imagined by Youth, for Youth

This year, more than 40 children took part in Créons ensemble (Creating Together), a unique event held at Collège Nouvelles Frontières, where the arts, science, and sports came together to provide an enriching and engaging experience.

What makes this initiative truly special is its participatory approach. Since January, a committee of 13 youth from the Centre de pédiatrie sociale de Gatineau (CPSG) and Collège Nouvelles Frontières worked together to design and organize the event. Supported by caring adult mentors, these young leaders developed valuable skills in leadership, communication, teamwork, and project management.

Beyond the activities themselves, the event gave participants the opportunity to create, collaborate, express themselves, and build meaningful connections in a positive and inclusive environment. The impact extends well beyond a single day, helping to strengthen their sense of belonging, self-confidence, and ability to make a positive difference in their communities.

The Centre de pédiatrie sociale de Gatineau extends its heartfelt thanks to Collège Nouvelles Frontières, as well as to all the youth, volunteers, and partners whose dedication made this inspiring initiative a success.

Partnership with Moisson Outaouais

The Centre de pédiatrie sociale de Gatineau (CPSG) is proud to benefit from a valuable partnership with Moisson Outaouais, helping to promote access to healthy and nutritious food for the children and families it supports.

Through this mutual agreement, the CPSG received 1,191 kg of food supplies, which helped provide nourishing meals and balanced snacks to children during their visits to the Centre. Adequate nutrition plays an essential role in their physical, cognitive, and emotional development.

Beyond this collaboration, the CPSG had the privilege of benefiting throughout the summer from Moisson Outaouais' Après la cloche program.

This program made it possible to provide nutritious meals and healthy snacks to children participating in our summer programming, helping to reduce food insecurity during the period when school meal programs are no longer available.

This partnership was further strengthened through the involvement of our Executive Director, Chloé Martinetti, who now serves on the Board of Directors of Moisson Outaouais as an affiliated member. This involvement reflects a shared commitment to working together to address the needs of families in our community.

By joining forces, the CPSG and Moisson Outaouais are helping to create an environment where children can grow in good health, thrive, and reach their full potential.

New Visual Identities Rooted in Our Community!

Over the past year, the Centre de pédiatrie sociale de Gatineau has continued to roll out its visual identity to better showcase its mission among children, families, and the community.

This initiative was notably brought to life through the installation of new signage at both of our centres, creating a consistent, welcoming, and easily recognizable image. More than a simple aesthetic change, these new signs reflect the evolution of our organization and help create spaces where children and their families feel welcomed, supported, and confident from the moment they arrive.

This year was also marked by the renewal of the Guignolée des enfants visual identity with Dr. Bureau, bringing new energy to this emblematic fundraising campaign and better reflecting its impact on children in our community.

Finally, the creation of the visual identity for the Boîte à musique (BAM), including its logo, helped strengthen the visibility of this impactful program by giving it a distinctive image that reflects its mission and its influence on the Centre's youth.

These initiatives demonstrate our commitment to developing strong and consistent communication tools that support the visibility of the CPSG, its programs, and its campaigns, while strengthening our community's sense of belonging.

2024–2027 Strategic Plan

CPSG continues to implement its 2024–2027 Three-Year Strategic Plan, a roadmap designed to support the organization's growth, strengthen its capacity to act, and ensure the long-term sustainability of its services for children and families in the community. The plan is built around three strategic priorities:

Over the past year, numerous concrete initiatives have been carried out in alignment with these strategic priorities.

Axis 1 Strengthen management to improve efficiency and ensure sustainability

- From an organizational management perspective, CPSG undertook a major human resources initiative aimed at attracting, engaging, and retaining employees. Key accomplishments included the development of a compensation policy, the creation of the organization's first leave and absence policy, a comprehensive review of working conditions, and enhancements to employee benefits. CPSG also streamlined its volunteer recruitment and management processes to better support the essential contribution volunteers make to fulfilling its mission.

Axis 2 Develop financial autonomy and diversify revenue sources

- To strengthen philanthropic development and diversify funding sources, CPSG implemented DonorPerfect, a donor and fundraising management system. This platform not only improves the management of philanthropic data but also enables more personalized communication with donors and partners, fostering stronger engagement and long-term donor loyalty. At the same time, new strategic partnerships were established to help meet the growing needs of children and families, improve the organization's long-term financial stability, and optimize expenditures without reducing the services provided

Axis 3 Increase visibility and strengthen brand recognition

- Finally, significant efforts were devoted to increasing CPSG's visibility and public profile. The rebranding of the Guignolée campaign, the development of a comprehensive communications plan, and a variety of outreach initiatives helped strengthen the organization's recognition and raise greater awareness of its mission throughout the community.

This important organizational work will continue over the coming year to create the conditions necessary for CPSG to fulfill its mission and further increase its impact on the children and families it serves.

A United Community to Help Our Children Succeed

Community Partners

Each year, strong relationships continue to be built with our community partners. The CPSG can count on the support of many partners who contribute to advancing our mission, each in their own way.

Thank you to our partners from all sectors (education, community organizations, early childhood services, healthcare networks, and many others) for their ongoing collaboration!

The Centre de pédiatrie sociale de Gatineau places great importance on collaboration, collective action, and representing social pediatrics within various organizations and community networks.

Outreach and Community Presence 2025–2026

- Active participation in several committees of the CISSS de l'Outaouais
- Member of the Board of Directors of CVQ Vieux-Gatineau
- Member of Hull en Santé
- Member of the Table des partenaires du secteur Fournier
- Member of the Comité des partenaires du secteur Dupuis
- Member of the Board of Directors of Table Éducation Outaouais
- Member of the Comité des forces locales – Prevention of violence in the Vieux-Gatineau community
- Affiliate member of Moisson Outaouais
- Member of the Regroupement pour la valorisation de la paternité (Fatherhood Promotion Network)
- CPSG representative for the Cascades project
- Participation in several committees supporting the implementation of the Aire ouverte project in Outaouais
- Involvement in school community activities across each of our territories
- Member of the Alliance québécoise de la pédiatrie sociale en communauté (AQPSC)
- Member of the Association des gens d'affaires et professionnels du Vieux-Gatineau (AGAP)

Research Partners

In addition to providing services to the community, the Centre de pédiatrie sociale de Gatineau collaborates with numerous researchers to advance knowledge and improve its practices through evidence-based approaches.

Over the past year, we have had the opportunity to take part in inspiring and meaningful projects thanks to our invaluable research partners:

- Université du Québec en Outaouais
- University of Ottawa
- Université du Québec à Trois-Rivières
- McGill University
- Groupe de recherche et d'intervention auprès des enfants vulnérables et négligés (GRIN) — Research and Intervention Group on Vulnerable and Neglected Children

With the support and
collaboration of an
entire community,
together, we can go
further than ever!

Financial Partners

The Centre de pédiatrie sociale de Gatineau can count on a committed community of businesses and citizens whose exceptional generosity allows us to support, care for, and restore hope to the children we serve.

\$257,978.94 for Children: The 17th Guignolée des enfants with Dr. Bureau, presented by Desjardins, brings the entire community together.

In a context marked by growing social inequalities and economic challenges, the needs of the children supported by the CPSG continue to increase.

The Guignolée des enfants is the Centre's primary fundraising campaign and plays a key role in ensuring the continuity and quality of the services provided throughout the year.

Every donation received contributes to comprehensive and personalized support based on a compassionate, interdisciplinary approach rooted in children's rights.

"The children we support often face difficult realities that have a profound impact on their health, development, and well-being. Behind every situation is a child who needs to be seen, heard, and supported.

Thanks to the commitment of our community, we are able to provide them with adapted care and compassionate support that helps heal wounds, strengthen emotional security, and truly transform their life paths," emphasizes Dr. Anne Marie Bureau.

Over the past year, more than 1,100 children have benefited from CPSG services. This success is the result of an exceptional collective effort bringing together donors, partners, volunteers, businesses, and community members united around one shared cause: the well-being of children in Gatineau.

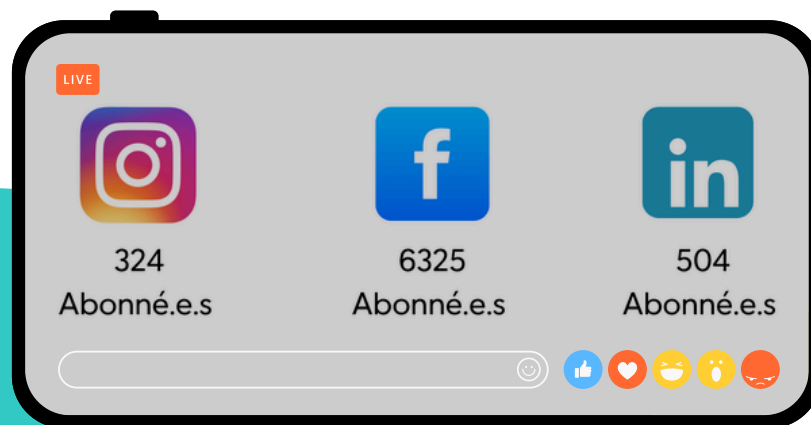

"The Guignolée des enfants is much more than a fundraising campaign: it is a true movement of solidarity. Reaching \$257,978.94 shows how deeply our community believes in the importance of investing in children.

We warmly thank Desjardins, our presenting partner, as well as all the individuals, businesses, and little elves who are part of the protective circle supporting the children in our community," says Chloé Martinetti, Executive Director of the CPSG.

Fundraising Activities for the CPSG

We thank everyone who organized a fundraising campaign in support of the Centre de pédiatrie sociale de Gatineau!
Your participation is essential!

Our Presence

In light of this media coverage, it is clear that the Centre de pédiatrie sociale de Gatineau continues to fulfill its mission by providing children in vulnerable situations within our community with access to the health care services to which they are entitled.

Our message is simple: to provide care that respects the Convention on the Rights of the Child. In doing so, we ensure the health and optimal development of each child.

Funding

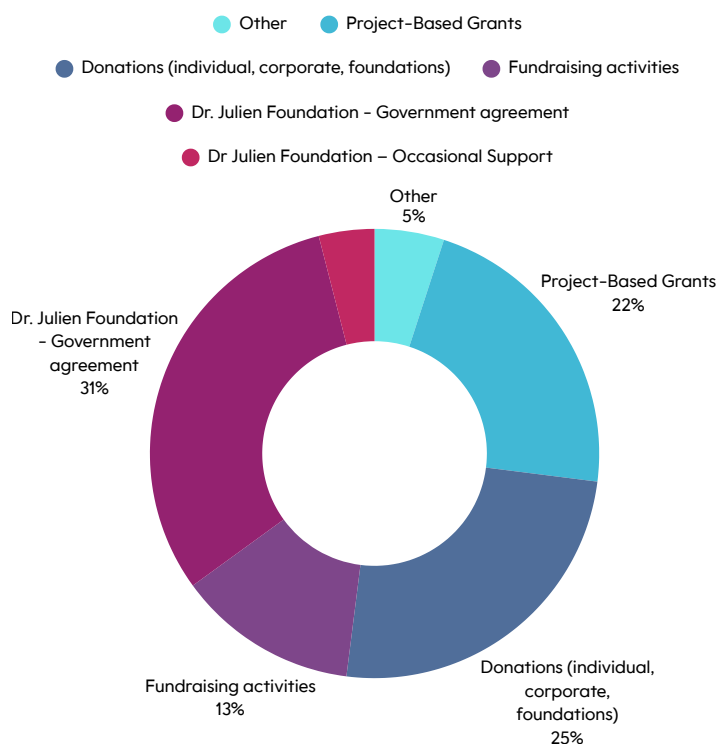

Revenues and Expenses

To ensure its sustainability, the CPSG must rely on a diversified range of funding sources. A significant portion of this funding comes directly from the community, and we are incredibly grateful for the ongoing support of many loyal donors and businesses across the region.

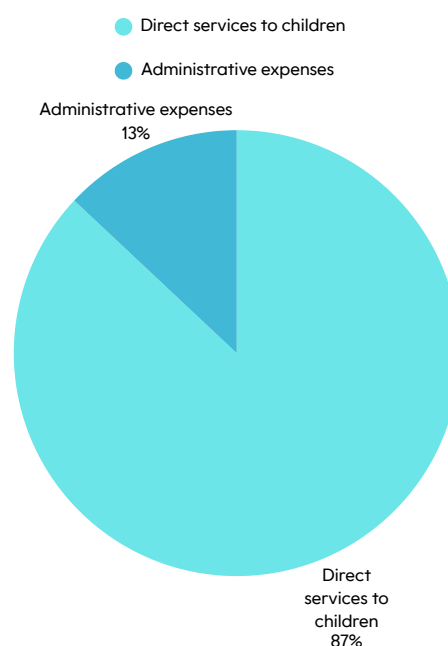

However, despite this remarkable generosity, the current economic climate is making fundraising increasingly challenging, even as the needs within our community continue to grow. This reality requires us to intensify our fundraising efforts, often through temporary and project-specific grants that do not provide long-term stability.

In this context, mission-based funding remains an essential priority to ensure the long-term sustainability of our services and to maintain an appropriate and lasting response to the needs of the children and families we support.

Revenues

Expenses

The use of funding is primarily dedicated to direct services for children (clinical staff salaries, professional services, activity costs, etc.). Since the delivery of care and support services is at the heart of our mission, the salaries and social benefits of our clinical team represent the organization's largest expense.

2026–2027 Projections

The year now coming to a close was marked by the successful completion of the vast majority of the projects identified in our 2025–2026 plans. Notable achievements included the official inauguration of the Boîte à musique (BAM), the continued implementation of our 2024–2027 Strategic Plan, and significant infrastructure improvements at our Hull Centre, including the replacement of flooring in the oldest section of the building and the redevelopment of the outdoor courtyard. Efforts to modernize our management systems, strengthen cybersecurity, and optimize our technological tools also continued, alongside the rollout of new engagement and philanthropic development initiatives. Although the second edition of the Jeune Ensemble event ultimately did not take place, the objectives associated with it remain central to our development priorities. These accomplishments demonstrate CPSG's ability to transform its strategic vision into concrete actions that benefit children and families.

Over the coming year, CPSG will continue its efforts to build on these achievements and further enhance its services to better meet the needs of children and families.

Among the major projects planned, CPSG will develop a sensory room at the Hull Centre, providing an environment specifically designed to support children's development, self-regulation, and sensory stimulation. At the Gatineau service point, the acquisition of modular equipment will optimize the use of available space and support a wider range of flexible, client-centered activities. Renovation work is also planned for the outdoor courtyard at the Gatineau site to create a more welcoming, safe, and stimulating environment where children can play, learn, and thrive.

From an organizational perspective, CPSG will continue implementing its 2024–2027 Strategic Plan. Efforts will focus on continuously improving management structures and organizational and clinical processes to enhance efficiency, quality of care, and long-term sustainability. A major information technology initiative will also be undertaken to modernize digital tools, improve system integration, and strengthen information security.

The continued development of our philanthropic strategy will remain a priority in order to strengthen CPSG's financial independence and support its long-term growth. Particular attention will be given to ensuring the sustainability of the Boite à musique program, as funding from Employment and Social Development Canada is scheduled to end in March 2027. A financial sustainability strategy will therefore be developed to ensure the continuity and future growth of this important component of our clinical services.

CPSG will also continue implementing the action plan arising from its advocacy initiatives to advance the conditions that support the healthy development and well-being of children living in vulnerable situations. In collaboration with the Québec Association of Social Pediatrics Centres, the organization will actively participate in negotiations for a new funding agreement with the Government of Québec, as the current agreement is set to expire in March 2027.

These projects reflect CPSG's commitment to investing in its future while remaining true to its mission. Thanks to the dedication of our staff, volunteers, partners, and donors, the organization will continue to grow and evolve in order to provide services that are increasingly responsive to the needs of the children and families in our community.

Once again, we look
ahead to another
year filled with
exciting challenges
and meaningful
opportunities to make
a difference.
